Cyber Security & Risk Management

National Insights - Summer Edition

Build the Best Cybersecurity Practices to Create Unique Protection Plans Best Fit for Your Organization

Online → Wednesday, September 28, 2022 | 12:00 - 2:00pm ET & 9:00 - 11:00am PT

Your Inspiring Speakers

PHILIP WAGNER
Director, Cyber Governance, Assurance & Risk (ITSA)/Deputy CISO
NDIA Australia

KALYAN CHAKRAVARTHY
CIO
Durham Region

MICHELLE DESNOYERS
Corporate Information Security Officer
Alberta Pensions Services Corporation

TY CURRAN
Director Cyber Security, National Security and Cyber Security Branch
Public Safety Canada

SANA ABOU-SHAABAN
Manager of Policy and Planning, Co-Creator of Women in IT
Canada Border

KATRINA INGRAM
Advisor, Data Analytics & AI Ethics
City of Edmonton

Benefits of Attending

Discover the latest technology helping to **mitigate risk and strengthen your security**

Explore areas of consideration when **testing for an organization's resiliency and anti-fragility**

Gains insights on how the **collaboration among organizations** is a crucial step in overcoming cybersecurity challenges

[CLICK HERE TO REGISTER](#)

Great panel. Presenters were concise and displayed mastery over the subject.

City of St. Catharines

Build the Best Cybersecurity Practices to Create Unique Protection Plans Best Fit for Your Organization

The Canadian Public Sector is constantly exposed to cybersecurity challenges. Our Public Sector organizations need to stay vigilant in protecting their organization and data against cyber espionage by understanding their environment and protection strategies. Achieving a balance between centralizing and decentralizing regulations, governance, and policies regarding cybersecurity across the public sector can strengthen organization's cybersecurity. Constantly monitoring and revising cybersecurity controls will ensure your organization is aware of any breaches, identify failed attacks, and detect the areas of improvement for higher level of protection.

Join us at the Public Sector Network's **Cyber Security and Risk Management Q3 National Insights Summer Edition**, the event will focus on how to mitigate risk and learn through collaboration. By sharing best practices, agencies can employ stronger cyber defence strategies and implement them throughout their organizations. They can educate their workforce on understanding the need for vigilance and how following company policies can help uplift resilience.

Who You'll Meet

Chiefs/Directors/Heads of:

- Cyber Security
- Operational Technology Security
- Risk & Risk Management
- Data Privacy Officer
- Information Management
- Information Security Officers (CISOs)
- Technology Officers
- Governance
- Strategy
- IT Talent Managers

12:00pm ET
9:00am PT

Welcome from Public Sector Network

12:05pm ET
9:05am PT

Welcome from Chair

Katrina Ingram, *Advisor, Data Analytics & AI Ethics, City of Edmonton*

12:25pm ET
9:25am PT

Government Keynote:

Government of Canada's Fall Cyber Security Updates

- Exploring the Government of Canada's strategy and priorities for cybersecurity in the foreseeable future

Ty Curran, *Director Cyber Security, National Security and Cyber Security Branch, Public Safety Canada*

12:45pm ET
9:45am PT

International Keynote:

Balancing Uniformity and Decentralized Cyber Regulations and Governance to Cyber Security, Data Protection and Privacy

- Utilizing the risk-based approach to help identify the regulations and governance an organization needs to adapt
- Understanding the importance of mandated and unified regulations to reporting any breaches and attacks
- Identifying strategies to overcome critical infrastructure risk caused by the lack of siloed data

Philip Wagner, *Director, Cyber Governance, Assurance & Risk (ITSA)/Deputy CISO, NDIA Australia*

1:05pm ET
10:05am PT

Break

This was an informative and useful event. Public Sector Network has done an excellent job!

City of Toronto

1:15pm ET
10:15am PT

Panel Discussion

Top Measures to Create Baseline Cyber Security Controls to Reduce Your Risks and Improve Your Ability to Respond to Security

- How does your organization test and determine the anti-fragility of your cyber security defence?
- What strategies does your organization utilize to protect against polymorphic malware?
- What are points of considerations used to determine the organization's risk tolerance to attacks?
- What are best cyber practices your organization utilize to test for resiliency?

Kalyan Chakravarthy, *CIO, Durham Region*

Michelle Desnoyers, *Corporate Information Security Officer, Alberta Pensions Services Corporation*

Sana Abou-Shaabon, *Manager of Policy and Planning, Co-Creator of Women in IT at CBSA, WCT Leadership Excellence Award Recipient for the Empowerment Individual category, Canada Border Services Agency*

Moderated By: Katrina Ingram, *Advisor, Data Analytics & AI Ethics, City of Edmonton*

1:55pm ET
10:55am PT

Closing Remarks from the Chair
