

# Virtual Hybrid IT & Cloud Computing

Assessing the hybrid and cloud environments: interoperability, management and operations

Online | Tuesday, 22 September 2020

PUBLIC  
SECTOR  
NETWORK

## AGENDA OVERVIEW

Cloud computing is on the agenda for public sector organisations to drive efficiencies, enable mobility for in-field operations, and turbocharge digital culture transformation programs to improve citizen engagement and experience.

Agency personnel responsible for developing and implementing cloud-based solutions — for implementing data center consolidation and other technology efficiencies — continue to look for opportunities to learn about the best technologies, configurations, service and deployment models, and the appropriate mix of cloud services — based on their government agency requirements.

Public Sector Network's Hybrid IT & Cloud Computing virtual event, which is free for government attendees, will review the variety of platforms and solutions available, highlight government success stories, and provide a roadmap of how those responsible for implementing cloud-based technologies can evaluate the options, choose the best solutions for their agency, and drive long-term benefits by working from the cloud.

## REASONS TO ATTEND

A must attend event for public sector professionals looking to drive operational excellence

Learn how to build a comprehensive roadmap for ICT transformation

Evaluate options, solutions and opportunities of hybrid IT & cloud

Explore best practice strategies, how to overcome challenges, and lessons learned from your colleagues in the public sector

## SPONSORS

## WHO SHOULD ATTEND

- CIO/CTO IT Director
- Enterprise Architecture
- ICT Procurement
- Contract Management
- IT Infrastructure
- IT Operations
- ICT Applications
- Vendor Management

## SPEAKERS

**SCOTT LEVAC**  
Director, Cloud Oversight  
Treasury Board of Canada  
Secretariat

**CHRIS BUXTON**  
Chief Digital Officer  
Stats New Zealand

**TRENT MCGEE**  
Manager, ICT Security  
SA Police

**REGINE DELEU**  
General Manager Digital  
Architecture  
Auckland Transport

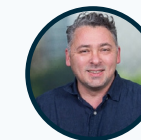

**SIMONA DIMOVSKI**  
Chief Information Officer  
Sutherland Shire Council

**ANDREW DENT**  
Client Architect - Office of  
the CTO, APAC  
MuleSoft

**DAVID BACKLEY**  
Chief Information Officer  
TAFE NSW

**ARIS THEOCHARIDES**  
Partner  
Deloitte Digital

**STEVE KOSIC**  
Regional Sales  
Manager, ANZ  
Riverbed Technology

**JOHN MILLIONIS**  
Channel Director APAC  
Riverbed Technology

**DR ULRICH KALEX**  
SVP Product Management / R&D,  
Software AG

## AGENDA

9.00am	Welcome from Public Sector Network
9.10am	Chair Opening: What's Next for Cloud in the Public Sector? Aris Theocharides, Partner, Deloitte Digital
9.20am	International Keynote Session: Building Strong Cloud Capabilities within Government of Canada Scott Levac, Director, Cloud Oversight, Treasury Board of Canada Secretariat
