Approach to Transformational Health and Wellness Enablers

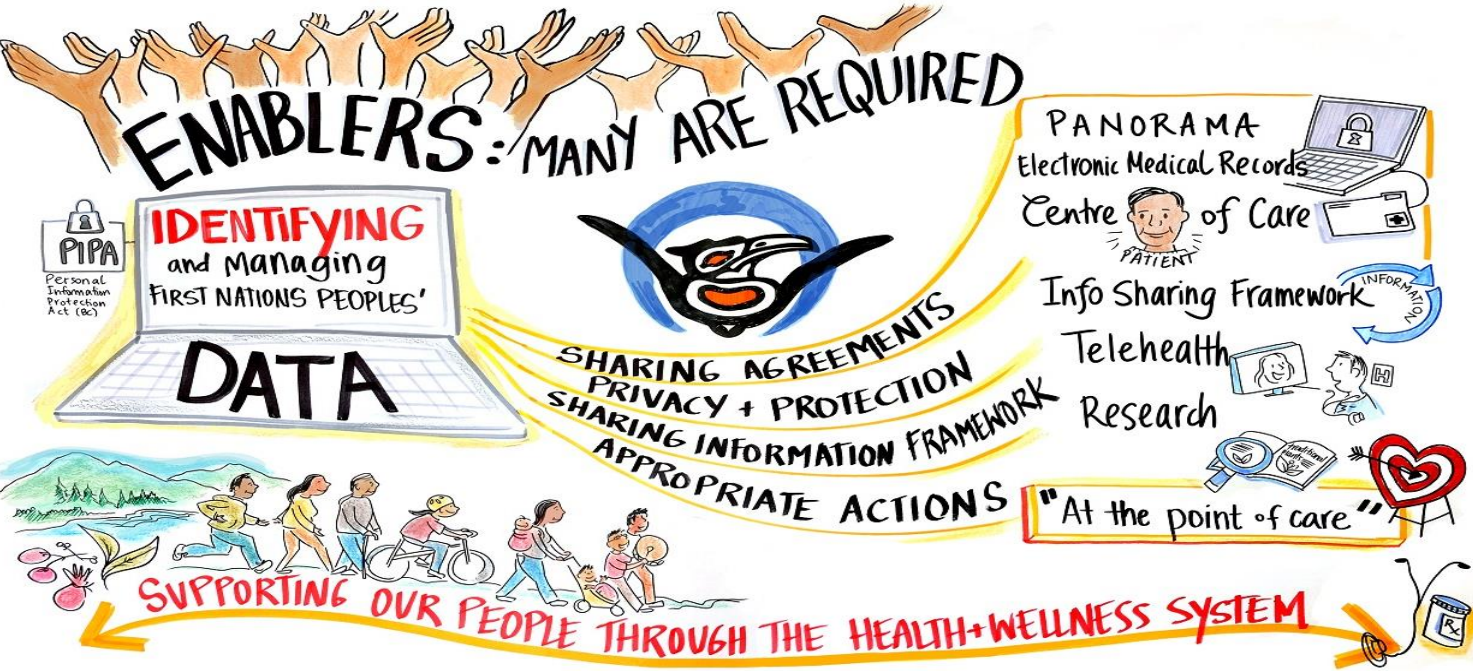

- *What type of change management framework to support users and recipients is needed to implement transformational technological changes in remote communities?*

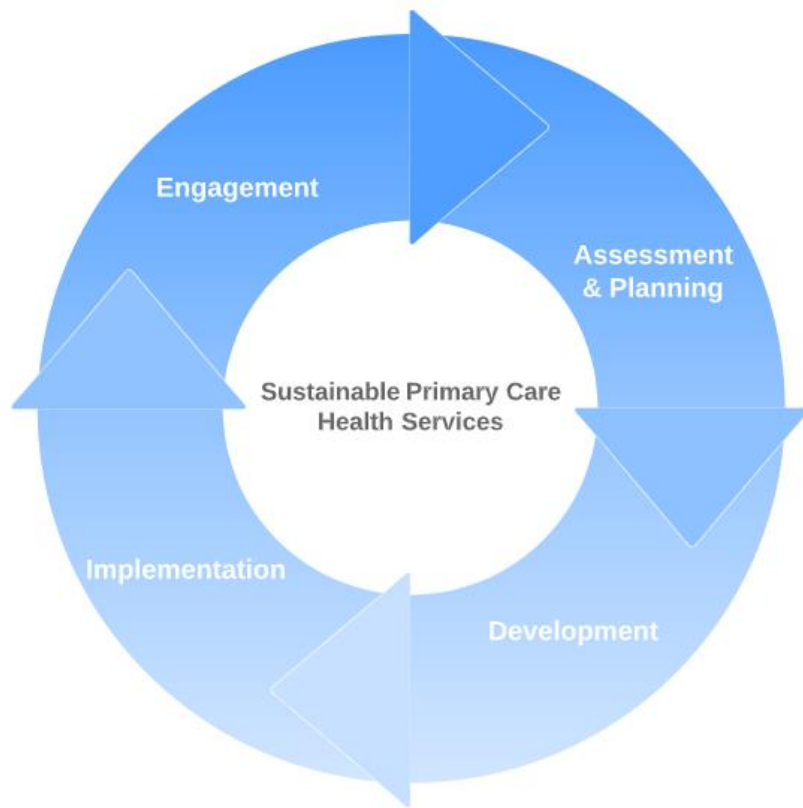

VISION

Develop and expand unique virtual care models, services and supports to support First Nation communities in British Columbia, thereby providing more culturally safe, quality, timely, equitable and longitudinal access to health care/wellness services closer to home.

PROCESS, What Do We Do?

- Engagement
- Readiness and Needs Assessment
- Clinical Workflows
- Mapping and Matching
- Deployment and Training
- Ongoing Follow-up
- Advisory eHealth Services – facilitation
- Maintenance, Support & Monitoring

First Nations EMR Strategy

- *How are you addressing interoperability between virtual care solutions and your EHR?*

Thank You
