

Public Sector Innovation Show **Federal**

Collaborate - Ideate - Innovate

Wednesday, February 23 & Thursday, February 24, 2022

Online | 12pm ET & 9am PT

Certified

Corporation

Agenda at a glance

Building on the conversations and ideas raised at our 2020 and 2021 programs, the third annual **Public Sector Innovation Show (Federal)** will once again bring together the public sector innovators and decision-makers who are leading the way at the Government of Canada.

This year, the culture of innovation and how it can help government “build back better” and recover in a post-COVID environment will be examined. To build sustainability around this vision, leaders will need champions across all departments who advocate for innovation and in turn will drive transformation. That’s where you come in!

Our program will showcase the projects and ideas that are making a difference to the people you serve and your colleagues across government – from practical case studies to keynotes that will inspire you and your teams to panel discussions meant to show cross-departmental and enterprise-wide change and opportunities. This two-day virtual event is a forum meant to ensure that the change implemented under pressure over the past two years becomes sustainable and scalable, backed by strong fundamentals and a collaborative, iterative approach to getting things done.

We invite you to join the conversation that is exclusively and complimentary for government employees. With one half-day of plenary sessions and another with topic streams that focus on **People, Technology** and **Digital & CX**, our program is full of learning opportunities that you and your team can implement to improve collaboration, build trust and action together to achieve results.

“

Great information, precise and straight to the point.”

Shared Services Canada

What’s New in 2022

Plenary day, followed by a **specialized second day of streams**

Special focus on **3 specialty streams** – People, Digital & CX, and Technology

Hear from **25+ senior level federal and provincial speakers**

Learn from **8 keynotes, 4 panels, and a case study**

Chance to **ask questions from the expert** after each session

Who You'll Meet

- Digital, Innovation & ICT
- Corporate Services
- Citizen Engagement & Experience
- Service Design & Delivery
- Workforce & HR
- Strategic Planning
- Data, Analytics & AI
- Information & Enterprise Architecture
- Information Management
- Change, Culture & Transformation

Benefits of Attending

Create opportunities to learn new skills, increase capabilities, reduce redundancies, and create better days for public sector employees

Leverage lessons learned from the crisis-driven response to COVID-19 to reprioritize and reframe your processes and services in a way that best supports efficiency, ease-of-use and inclusivity
Assimilate how to achieve a more agile and innovative organization

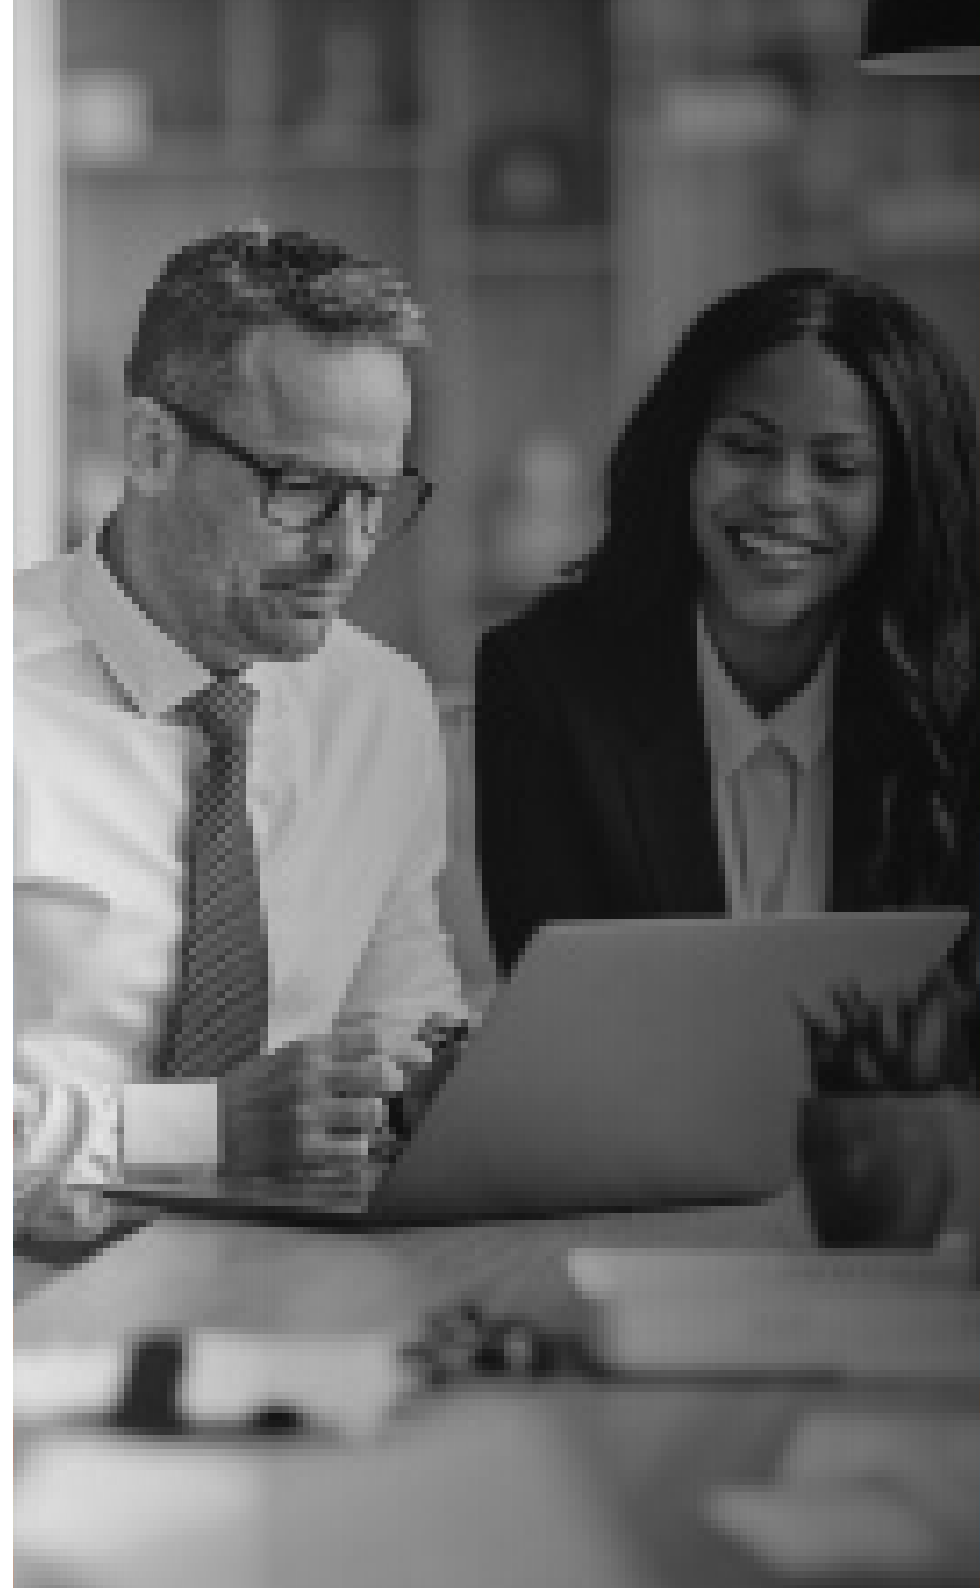

Learn how to achieve a more agile and innovative organization

Discover habits of highly effective digital governments

Build connections, engage, and share ideas that support an iterative, flexible, and innovative public sector environment
