

# Public Sector Innevation Show Saskatchewan

Driving Innovation and Transformation in the Government

Monday, June 27, 2022

Delta Hotel Regina | 8:30am CT

# Agenda at a glance

Over the past few years, the public sector has fast-tracked the adoption of a digital-first mindset. The need to innovate the public service has been of growing importance as staying the same is no longer an option. Innovation has become the new normal and with the landscape continually shifting, public sector leaders must keep up with the speed of change.

Innovation is not just about leveraging technology, organizations are now collaborating and involving industry partners in the design of processes by actively soliciting ideas, gathering feedback, and cocreating better public service solutions.

When we work together with organizations and experts across a wide range of departments, we can turn ideas into real solutions and make them available for citizens. For the Saskatchewan public sector, this opens the door to reimagine a future in which all citizens have access to the benefits and opportunities of the digital economy. How can public sector leaders continue the transformation momentum and build a culture that is forward thinking and innovative?

**Public Sector Innovation Show** is designed to provide inspiration, tools, and information for public sector leaders in Saskatchewan to drive overall growth in their departments and the province. This event is for the community to meet each other in the context of quality conversations from some of the leading innovative 'doers' in the region.

# Who You'll Meet

- Digital, Innovation and IT
- Corporate Services
- Citizen Engagement and Experience (CX)
- User Experience (UX)
- Service Design and Delivery
- Workforce, Learning and Development, and HR

- Strategic Planning and Operations
- Data and Analytics
- Artificial Intelligence and Machine Learning
- Information, Security and Enterprise
- Architecture
  - Information Management

# **Benefits of Attending**

Hear how innovative digital experience strategies and processes are transforming government services to deliver positive outcomes to citizens

Learn how to seize opportunities to enhance integration across departments and agencies to deliver shared outcomes

Explore ways to create an autonomous and trusting environment to promote innovative thinking within an organization

Discuss how to employ emerging technologies to enable fast, progressive, safe, and efficient operations

# **Your Inspiring Speakers**

Robert Falzon, Head of Engineering, Office of the CTO, Check Point

### Roundtable 3:

Roundtable 1:

Harnessing Industry 4.0 Technologies to Support Collaboration and Innovation

Protecting Your Digital Assets: Key Strategies to Defend Against **Modern Cyber Attack** 

Simon Weng, Senior Mobile Transformation Consultant, Samsung

Dom Amyotte, Regional Sales Manager, CrowdStrike George Nazarey, Regional Sales Engineer, CrowdStrike

### Roundtable 5:

**Boosting Digital Transformation Efforts by building a Data-driven Culture** 

Eric Van Iersel, VP - SAP SuccessFactors, SAP

### 12:25pm CT

**Gold Partner Session:** 

**Upskilling and Reskilling for a Future-Fit Public Service** 

Eric Van Iersel, VP - SAP SuccessFactors, SAP

### 12:45pm CT

Panel Discussion:

## Driving Public Service Transformation Strategies by Aligning People, Process and Culture

- What are the key trends driving transformation strategies within Saskatchewan's public service?
- How to embed the right organizational culture to ensure seamless transformation?
- How can leaders play a key role to build or support a culture of continuous innovation and improvement?
- What are the common challenges and barriers to enterprise-wide transformation? How do we ensure that all the functions are on a symbiotic transformation journey?
- How can organizations work towards breaking down silos and co-developing digital transformation strategies for bigger wins?
- What tips would you to like to share with those looking to sustain and grow their transformation efforts beyond Covid?

Kathryn Pollack, Chief Procurement Officer, Government of Saskatchewan

Tamara Therrien, Executive Vice President & Chief Human Resources Officer, Saskatchewan Government Insurance

Christa Ross, Assistant Deputy Minister, Ministry of Immigration and Career Training

Simon Weng, Senior Mobile Transformation Consultant, Samsung

Moderator: Michael Switzer, Senior Vice President, Consulting Services, Saskatchewan, CGI
