

# ROADSHOW

## Cyber Security and Risk Management

September 6 - 21  
**NSW | VIC | QLD**  
**WA | SA**

## // Adapting for a More Resilient Enterprise in the Next Normal

[Publicsectornetwork.co](https://Publicsectornetwork.co)

P: (02) 9057 9070

E: [Sponsor@publicsectornetwork.co](mailto:Sponsor@publicsectornetwork.co)

## Adapting for a More Resilient Enterprise in the Next Normal

The importance of enhanced cyber security is making headlines as rising international tensions have reiterated the need for improved resilience across the nation. Security leaders have been told to strengthen their defences as attacks on networks and data continue to rise.

Government organisation's are facing new threats daily and are racing to stay ahead of bad actors, who are employing more sophisticated methods to successfully breach systems. It is imperative new methods and emerging technologies are combined with improved practices and good cyber hygiene to protect the nation from widespread threats.

The Public Sector Network's **2022 Cyber Security Roadshow** will focus on how to mitigate risk and learn through collaboration. By sharing best practices, agencies can employ stronger cyber defence strategies and implement them throughout their organisations. They can educate their workforce on understanding the need for vigilance and how following company policies can help uplift resilience.

The series will head to five cities across Australia to benchmark the key challenges faced by the public sector in each state. It will provide an opportunity to network and collaborate with leaders in the field and feature speakers who will highlight case studies specific to each location to help understand the how we can improve overall cyber security across the country.

**REGISTER TODAY**

## // Benefits of Attending

**Network with leaders** and collaborate to learn the techniques they are employing to protect their systems

**Learn about the latest methods** to protect your networks and keep data safe from bad actors

**Discover new technologies** helping to strengthen defences, improve security and create multiple layers of protection

**Hear case studies** from leaders across the country who are navigating the challenges facing cyber specialists as threats continue to escalate

## // Who You'll Meet

### Chiefs/Directors/Heads/Managers of:

- |  |  |
|--|--|
| ● Department of Transport              | ● Department of Defence                      |
| ● Department of Education              | ● Department of Justice                      |
| ● Department of Health                 | ● Department of Treasury                     |
| ● Department of Premier and Cabinet    | ● Department of Customer Service             |
| ● Department of Science and Technology | ● Department of Planning and the Environment |
| ● Digital Government                   | ● Court Services                             |

**Day 1**

**Sydney**

**6 September**

**PwC Offices**

One International  
Towers  
Watermans Quay  
Barangaroo 2000

**Day 2**

**Melbourne**

**7 September**

**PwC Offices**

2 Riverside Quay  
Southbank 3006

**Day 3**

**Brisbane**

**8 September**

**PwC Offices**

480 Queen St  
Brisbane City  
4000

**Day 4**

**Perth**

**15 September**

**PwC Offices**

125 St Georges  
Terrace Perth 6000

**Day 5**

**Adelaide**

**21 September**

**PwC Offices**

70 Franklin St  
Adelaide 5000

**The presentations were really great,  
transparent and not at all ‘boring’.**  
**Fantastic presenters and facilitator.**

## // Explore the Agenda - NSW - 6 September

**8:30am** Registration and Networking Coffee

---

**9:00am** Opening from Public Sector Network & Icebreaker

---

**9:15am** Welcome from Chair

Richa Arora, *Partner*, PwC

---

**9:30am** **Government Keynote: Creating and Refining Strategies for Resilience – An Integrated Approach for Protection and Response**

- Stronger individual agency cyber security and technology for an uplift to NSW cyber resilience as a whole
- Collaboration and sharing best practice for a united front against cyber threats- Transport for NSW's role
- Transport for NSW approach to mitigating risk, educating their workforce and revising and implementing new policies

**Charlotte Wood**, *Director / Policy, Awareness and Research*, Cyber Security NSW

---

**9:50am** **Platinum Partner Session: Identity at the Core of Zero Trust**

Today, Zero Trust is no longer a theoretical idea—it's an active initiative for virtually every company with a digital footprint. However, many organisations still have a long way to go to truly reap the rewards of an advanced Zero Trust security architecture with just under half of APAC organisations having a defined Zero Trust security initiative in place today (The State of Zero Trust Security 2022, Okta). Join this session to discover:

- What should your Zero Trust 'North Star' be?
- Hear this years top security strategy takeaways
- Unpack the five phases of Zero Trust Maturity
- Where does your organisation sit on the Maturity curve, and what does it mean for your security strategy?

**Jefferson Haw**, *Principal Solutions Architect*, Okta

---

**10:10am** **Gold Partner Session: Securing a Data Dependent World**

- Data Dependence has changed cybersecurity
- Embedding Data Security into organisations
- Protecting sensitive data in legacy and new platforms

**Erick Reyes**, *Regional Director*, Thales Cloud Protection & Licensing (CPL)

---

---

**10:30am Government Keynote: How the Department of Communities and Justice Identify Vulnerabilities and The Latest Threats to Your Organisation**

- The difficulty in identifying vulnerabilities within the supply chain
- The evolving threats within the supply chain
- The element of 'human trust' needed to mitigate supply chain risk

**Andrew Karvinen**, *Chief Information Security Officer*, Department of Communities and Justice NSW

---

**10:50am Morning Tea and Networking Break**

**11:10am Concurrent Roundtable Discussions**

**Roundtable 1**

**How to Realise Federated Identity in days not months**

**Jefferson Haw**, *Principal Solutions Architect*, Okta

**Roundtable 2**

**Taking the security handbrake off your Data Driven Transformation**

**Erick Reyes**, *Regional Director*, Thales Cloud Protection & Licensing (CPL)

**Roundtable 3**

**Managing risk and the ISM framework across multiple public cloud environments**

**Robin Long**, *Regional Manager*, Rapid7

**Roundtable 4**

**Three Threat Trends Trends - How to Respond for the Pain to Go Away**

**Michael Aboltins**, *Security Evangelist (ANZ)*, Securonix

---

**12:10pm Panel Discussion: The Changing Cyber Security Landscape - Identifying Priorities and Implementing New Capabilities for Better Outcomes**

- How to decide what to prioritise to uplift cyber security in your organisation
- The international landscape - how it's impacting Australian organisations
- Improving capabilities through new technology, patching and updates
- Preparedness for early detection and containing a breach

**Matthew Fedele-Sirotich**, *Chief Information Security Officer*, Customer Service NSW

**Muthindra Gunasekara**, *Director IT and Shared Services*, Resilience NSW

**Anna Aquilina**, *Chief Information Security Officer*, University of Technology Sydney

**Robin Long**, *Regional Manager*, Rapid7

---

**12:50pm Closing remarks from Chair and Networking Lunch**

## // Explore the Agenda - VIC - 7 September

**8:30am** Registration and Networking Coffee

---

**9:00am** Opening from Public Sector Network & Icebreaker

---

**9:10am** Welcome from Chair

Daniel Muchow, *Director, Cyber Security and Digital Trust, PwC*

---

**9:20am** **Government Keynote: Preaching to the Converted – How Do We Get the Message on the Pain Points to a Broader Audience**

- Conveying the risk and impact of a cyber breach to your organisation
- How do we ensure the understanding of cyber risk is there for non-cyber people
- Mitigating risk by educating your workforce and revising and implementing new policies

Laurie Joyce, *Head of Security Compliance, Australian Red Cross Lifeblood*

---

**9:40am** **Platinum Partner Session: Identity at the Core of Zero Trust**

Today, Zero Trust is no longer a theoretical idea—it's an active initiative for virtually every company with a digital footprint. However, many organisations still have a long way to go to truly reap the rewards of an advanced Zero Trust security architecture with just under half of APAC organisations having a defined Zero Trust security initiative in place today (The State of Zero Trust Security 2022, Okta). Join this session to discover:

- What should your Zero Trust 'North Star' be?
- Hear this years top security strategy takeaways
- Unpack the five phases of Zero Trust Maturity
- Where does your organisation sit on the Maturity curve, and what does it mean for your security strategy?

Jim Katsos, *Manager Solutions Engineering, Okta*

---

**10:00am** **Government Case Study: The Importance of Protecting Citizen Data - Maintaining Trust in Victorian Agencies**

- Securing data in a volatile threat environment – the best methods of protection being employed in Victoria
- What a breach could mean for your customers and employees of government agencies
- The rapid digital transformation – how it has affected data security and how the Victorian Ombudsman is shoring up defences

Rod Apostol, *Chief Information Officer, Victorian Ombudsman*

---

**10:20am** **Gold Partner Session Securing a Data Dependent World**

- Data Dependence has changed cybersecurity
- Embedding Data Security into organisations
- Protecting sensitive data in legacy and new platforms

Brian Grant, *AN/Z Regional Director, Thales Cloud Protection & Licensing (CPL)*

---

**10:40am Government Keynote: Building a Cyber Security Program while Managing Threats and Vulnerabilities?**

- What does a modern security program look like?
- What are the steps to build a security program?
- How do you communicate the program and get support from the board?

**Vijay Narayan**, *Chief Information Security Officer*, **Environment Protection Authority VIC**

**11:00am Morning Tea and Networking Break**

**11:20am Concurrent Roundtable Discussions**

**Roundtable 1**

**How to Realise Federated Identity in days not months**

**Jim Katsos**, *Manager Solutions Engineering*, **Okta**

**Roundtable 2**

**Taking the security handbrake off your Data Driven Transformation**

**Brian Grant**, *A/NZ Regional Director*, **Thales Cloud Protection & Licensing (CPL)**

**Roundtable 3**

**Managing risk and the ISM framework across multiple public cloud environments**

**Robin Long**, *Regional Manager*, **Rapid7**

**Roundtable 4**

**Three Threat Trends Trends – How to Respond for the Pain to Go Away**

**Michael Aboltins**, *Security Evangelist (ANZ)*, **Securonix**

**12:20pm Panel Discussion: The Changing Cyber Security Landscape – Identifying Priorities and Implementing New Capabilities for Better Outcomes**

- How to decide what to prioritise to uplift cyber security in your organisation
- The international landscape – how it's impacting Australian organisations
- Improving capabilities through new technology, patching and updates
- Preparedness for early detection and containing a breach

**8:30am** Registration and Networking Coffee

---

**9:00am** Opening from Public Sector Network & Icebreaker

---

**9:10am** Welcome from Chair

Jaynesh Narain, *Director, Cyber Security and Digital Trust, PwC*

---

**9:20am** **Government Keynote: Understanding Cybercrime to Enhance Your Organisation's Cyber Security**

- How analysing cybercrime can aid in improving your cyber defence
- Implementing emerging technologies and how they can make your organisation vulnerable to a breach
- The evolution of cybercrime and what does the future look like?

**Mandy Turner**, *Manager Cyber Security Operations Centre / Adjunct Lecturer School of Social Science (Criminology), University of Queensland*

---

**9:40am** **Platinum Partner Session Securing a Data Dependent World**

- Data Dependence has changed cybersecurity
- Embedding Data Security into organisations
- Protecting sensitive data in legacy and new platforms

**Brian Grant**, *AN/Z Regional Director, Thales Cloud Protection & Licensing (CPL)*

---

**10:00am** **Government Case Study: Towards Resilience: Social & Ethical Issues in Cybersecurity**

- Challenges in developing cybersecurity resilience
- What are the social issues in cybersecurity? What form do they take?
- Consent; informed consent, implied consent
- Ethical issues; right to be forgotten, organisational culture, traits of an ethical leader

**David Tuffley**, *Senior Lecturer, School of Information & Communication Technology, Griffith University*

---

**10:20am** **Gold Partner Session: Identity at the Core of Zero Trust**

Today, Zero Trust is no longer a theoretical idea—it's an active initiative for virtually every company with a digital footprint. However, many organisations still have a long way to go to truly reap the rewards of an advanced Zero Trust security architecture with just under half of APAC organisations having a defined Zero Trust security initiative in place today (The State of Zero Trust Security 2022, Okta). Join this session to discover:

- What should your Zero Trust 'North Star' be?
- Hear this year's top security strategy takeaways
- Unpack the five phases of Zero Trust Maturity
- Where does your organisation sit on the Maturity curve, and what does it mean for your security strategy?

**James Darwin**, *Senior Solutions Engineer, Okta*

---

**10:40am Government Keynote: People as the First Line of Defence**

- Preparation to lessen the impact if a cyber attack occurs
- The challenges of cyber security – why people remain so important
- How staff can prevent an attack before it happens using best practice security measures

**Anafrid Bennet**, *Head of Security and Operations, Greater Western Water*

**11:00am Morning Tea and Networking Break**

**11:20am Concurrent Roundtable Discussions**
