ROADSHOW

Cyber Security & Risk Management

// Staying Ahead and Adapting to Fast-Paced Change in Cyber Security

PUBLIC SECTOR NETWORK

Certified B Corporation

November 23
-
December 7

**Halifax | Victoria
Edmonton | Ottawa | Toronto**

Staying Ahead and Adapting to Fast-Paced Change in Cyber Security

The demand for a relevant and resilient cybersecurity plan is imperative due to the increased frequency and severity of cyber-attacks on organizations. The battle against cyber risk expands beyond the sole responsibility of our security leaders and is now embedded within the whole organization.

Public Sector Network's **Cyber Security and Risk Management Roadshow** will focus on how to strengthen cyber security strategies, and how to stay ahead of emerging risks. Creating a stronger cybersecurity landscape and adopting innovative technology can help combat cyber risks impacting organizations.

This event will benchmark and highlight key cyber challenges and solutions faced by Canadian organizations. Join us to learn, discuss and network with other cyber security trailblazers. It is the perfect opportunity to hear from your cybersecurity peers through a range of case studies and interactive sessions on the opportunities and risks that have emerged across the industry.

// Benefits of Attending

Understand how the cyber security landscape is evolving and how to unlock value by adapting to change

Network with other cyber security leaders on the emerging challenges, and discuss strategies that build resilience
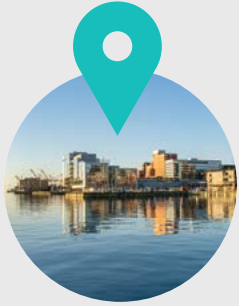

Discover new technology and innovation that can be leveraged to increase resilience and protection

// Who You'll Meet

Chiefs/Directors/Heads of :

- Cyber Security
- Operational Technology Security
- Risk & Risk Management
- Data Privacy Officer
- Information Management
- Information Security Officers
- Technology Officers
- Governance
- Strategy

Day 1

Halifax Marriott Harbourfront, Halifax

November 23

Day 2

Marriott Victoria Inner Harbour, Victoria

November 30

Day 3

MacEwan University, Edmonton

December 2

Day 4

University of Ottawa, Ottawa

December 6
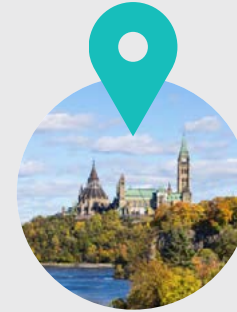

Day 5

Yorkville Royal Sonesta, Toronto

December 7

// `Explore` the Agenda - Halifax

Halifax Marriott Harbourfront | 1919 Upper Water Street, Halifax, Nova Scotia, Canada, B3J 3J5

8:30am   **Registration and Networking Coffee**

9:00am   **Opening from Public Sector Network**

9:05am   **Welcome from Chair**

Danny Timmins, *Partner, National Leader, Cyber Security,* **MNP Digital**

9:25am   **Government Keynote:**

Continuous Battle of Cyber Security- Fatigue Leads to Complacency
- Exploring what cyber security fatigue is and evaluating strategies to overcome it
- How is the international landscape impacting Canadian organizations?
- Strategies to tackle new compliance and unprecedented challenges

Stephanie LeBlanc, *Sr. Manager – Information & Technology Services,* **Halifax Water**

Kirk MacDonald, *Cyber Security Project Manager,* **Halifax Water**

9:45am   **Platinum Partner Session:**

Enforcing a Strong Zero-Trust Ransomware Defense

In a zero-trust world, you have to assume that attackers are already in your network. These threat actors are living off the land, using legitimate pathways to start and progress their attacks. Increasingly, the attacker's goal is to get into your network and stay there to explore, probe, eventually ransomware, and exfiltrate data. Join this session to learn about the strong and highly differentiated lateral security defense that sees more and therefore stops more, finding and evicting threat actors before they can do damage. Built on the principles of the cloud operating model, this solution delivers better security

Dev Sharma, *Senior Manager, Solution Engineering,* **VMware**

10:05am   **Government Keynote:**

Hybrid Cloud Model - Balancing Innovative Technology and Privacy Regulations
- Road mapping strategies to transition into cloud-based technologies
- Navigating the on premise, backup, and new adoption challenges during cloud adoption

Derrick Whalen, *Director, Information & Technology Services,* **Port of Halifax**

10:25am   **Gold Partner Session:**

The Truth is Out There: A Real-Time View of Risk Posture Across Your Enterprise

Ryan Doon, *Sr. Director, Technical Account Management,* **Tanium**

Public Sector Network will closely monitor COVID-19 regulations in accordance with the advice from the Canadian Government and local health authorities to ensure the safety of everyone attending the event physically. In addition, we will be working closely with the venue to ensure precautionary measures are in place.

10:45am **Morning Tea and Networking Break**

11:05am **Concurrent Roundtable Discussions**
Roundtable 1
Unifying Operations and Security under a Single View of the IT Estate

Ryan Doon, *Sr. Director, Technical Account Management,* **Tanium**

Roundtable 2
Starting from the Inside - Explore the Strategies to Protect your Organization against Insider Risk and Threat

Lisa Tetrault, *Senior Director, Global Security Operations,* **Arctic Wolf**

Roundtable 3
Securing the Unknown - Strategies for Reducing Blindspots and Elevating Your Risk Management Program

Moh Waqas, *Global Principal Solutions Architect,* **Armis**

12:05pm **Panel Discussion:**
Cyber Security Landscape- Unlocking Value by Understanding and Adapting to Change
- What considerations should organizations take into account when phasing out legacy systems?
- What strategies are organizations utilizing to increase digital and cyber literacy?
- What should an organization do when they notice a cybersecurity breach or threat?
- What are you doing to keep your team relevant, up to date on changes, and embracing a forward-thinking mentality?
- Can cybersecurity ever be labelled as a business enabler? If so, where do you focus your attention to achieve such a goal?
- With limited funding, what strategies are public sector organizations using to prioritize projects/tasks?

Tamim Rahman, *Senior Technical Advisor - Cyber Security, Enterprise Architect,* **Federal Government**

Stephanie LeBlanc, *Sr. Manager – Information & Technology Services,* **Halifax Water**

Lisa Tetrault, *Senior Director, Global Security Operations,* **Arctic Wolf**

Moderated By**: Danny Timmins,** *Partner, National Leader, Cyber Security,* **MNP Digital**

12:45pm **Closing remarks from Chair and Networking Lunch**

Marriott Victoria Inner Harbour | 728 Humboldt Street, Victoria, B.C, V8W 3Z5

8:30am **Registration and Networking Coffee**

9:00am **Opening from Public Sector Network**

9:05am **Welcome from Chair**
Danny Timmins, *Partner, National Leader, Cyber Security,* **MNP Digital**

9:25am **Government Keynote:**
Continuous Battle of Communication – Fatigue and Distrust Leads to Errors
- How environmental trends are making cyber risk communications more challenging than ever
- Exploring how information overload and change fatigue is impacting your employees and stakeholders
- Strategies to retain trust when dealing with cyber breaches

Sara Goldvine, *Vice President, Communications and Public Affairs,* **BC Housing**

9:50am **Government Keynote:**
It's not just the users: Creating Real Cybersecurity Engagement in your Organisation

What is really necessary to effect real and lasting change in your organisation's cybersecurity culture? People need to be aware, but they also need to care. And, most importantly, the "right" choice needs to be easy to find and simple to do, even if it means extra work for your security or IT teams. Which means the shift in culture also has to happen in your security and IT teams.

Penny Longman, *Director, Information Security and Data Stewardship,* **Fraser Health**

10:15am **Gold Partner Session:**
Effective Response In The Face Of Zero-Day Threats And Vulnerabilities

Today, all companies are susceptible to cyberattacks. Despite the presence of SOC teams monitoring for zero-day threats, vulnerabilities, and unusual activities 24/7. So what can you do to help your team accelerate incident response? Join me to discuss how you can:
- Quickly assess your risk exposure to identify CIs in zero-day vulnerabilities, such as Log4Shell
- Prioritize threats and vulnerabilities leveraging MITRE ATT&CK adversarial insights and CISA's Catalog
- Scale your SOC team to meet the ever-increasing volume of threats and vulnerabilities with automated workflows

Trevor Graw, *Solution Architect, Security Operations,* **ServiceNow**
Carey O'Reilly, *Solution Architect, Security Operations,* **ServiceNow**

Public Sector Network will closely monitor COVID-19 regulations in accordance with the advice from the Canadian Government and local health authorities to ensure the safety of everyone attending the event physically. In addition, we will be working closely with the venue to ensure precautionary measures are in place.

10:35am	**Morning Tea and Networking Break**

10:55am **Concurrent Roundtable Discussions**
Roundtable 1
Best Practices: What can you do to mitigate and prevent zero-day threats and vulnerabilities?

Carey O'Reilly, *Solution Architect, Security Operations,* **ServiceNow**

Peter Madden, *Senior Client Director, Government, Western Canada,* **ServiceNow**

Roundtable 2
Securing the Unknown - Strategies for Reducing Blindspots and Elevating Your Risk Management Program

Moh Waqas, *Global Principal Solutions Architect,* **Armis**

11:55pm **Panel Discussion:**
Cyber Security Landscape- Unlocking Value by Understanding and Adapting to Change
- What considerations should organizations take into account when phasing out legacy systems?
- What strategies are organizations utilizing to increase digital and cyber literacy?
- What should an organization do when they notice a cybersecurity breach or threat?
- What are you doing to keep your team relevant, up to date on changes, and embracing a forward-thinking mentality?
- Can cybersecurity ever be labelled as a business enabler? If so, where do you focus your attention to achieve such a goal?
- With limited funding, what strategies are public sector organizations using to prioritize projects/tasks?

Nancy Norris, *Senior Director | ESG & Digital Trust,* **BC Ministry of Energy, Mines & Low Carbon Innovation**

Mike Klein, *CIO,* **BC Housing**

Continuous Battle of Cyber Security- Fatigue Leads to Errors
- Exploring what cyber security fatigue is and evaluating strategies to overcome it
- How is the international landscape impacting Canadian organizations?
- Strategies to tackle new compliance regulations and unprecedented challenges

Martin Dinel, *Assistant Deputy Minister and Chief Information Security Officer,* **Government of Alberta**

9:45am **Platinum Partner Session:**
Forecast is Calling for Clouds!
Clouds, Clouds - everywhere there are Clouds! Built-in cloud-based controls only go so far and may be limited in capabilities. With multi-cloud deployments, these technologies become fragmented and add an extra layer of complexity. In this 20 min session we will review the capabilities in general, typical controls required, and then review a fictious breach that highlights the challenges for practitioners. We will then provide a methodology based on a use case to build security solutions with broader coverage that simplify the overall solution.
Jason Maynard, *Cisco Canada Security CTO,* **Cisco**

10:05am **Government Keynote:**
Hybrid Cloud Model - Balancing Innovative Technology and Privacy Regulations
- Road mapping strategies to transition into cloud-based technologies
- Navigating the on premise, backup, and new adoption challenges during cloud adoption

Eileen Rubiera, *Director, Technology Operations & Cybersecurity,* **Edmonton International Airport**

10:25am **Gold Partner Session:**
Accelerating the Evolution of Security Using a Converged Approach
Chris Cruz, *CIO,* **Tanium**

10:45am **Morning Tea and Networking Break**

Public Sector Network will closely monitor COVID-19 regulations in accordance with the advice from the Canadian Government and local health authorities to ensure the safety of everyone attending the event physically. In addition, we will be working closely with the venue to ensure precautionary measures are in place.

11:05am **Concurrent Roundtable Discussions**

Roundtable 1

Hybrid, Multi-IT, and Multi-Cloud Environments have put tremendous pressure on defenders - how are defenders levelling up their game?

Jason Maynard, *Cisco Canada Security CTO,* **Cisco**

Roundtable 2

Unifying Operations and Security under a Single View of the IT Estate

Chris Cruz, *CIO,* **Tanium**

Roundtable 3

The Stakes Rise as Lateral Movement is the New Cyber Battleground
