Power BI Fundamentals for Government Overview

If you have a keen interest in Excel and are looking to upskill into the world of Power BI, this is the course for you!

We are excited to invite you to our first virtual event with RonInsight's Power BI expert and trainer Michael Scholtz. No matter if you are the resident data guru in your business or just learning the ropes, please consider joining us for this comprehensive look at the Power BI Fundamentals.

Are you are interested in connecting to and visualizing data? With Michael's expert guidance you will discover how to use this unified, scalable platform for self-service and Business Intelligence. This program is a thorough, hands on experience offering a practical look toward gaining deeper, more meaningful data insight.

Not Just a **Training Session**

- **Build your own Power BI report and develop a comprehensive hands on understanding of the software.**
- **Discover the fundamentals around creating and editing reports and dashboards**
- **Harnessing the POWER of Power BI Desktop. Create fantastic Power BI visuals and present data with style.**

Who **Attends**

- **Excel Users (time to step up)**
- **Anyone who uses data**
- **Beginner Level Data Management and Analytics Community**
- **Local Data Gurus**
- **All Corners of Gov - State, Federal & Local**

Meet the Trainer

MICHAEL SCHOLTZ

Hi, I'm Michael Scholtz the owner and founder of RoninSights and I love Power BI! This unique and robust product is my primary tool in bringing data driven professionals closer to their data; in turn helping them make better data driven decisions. With over a decade of analytical experience, I have created reports across multiple industries spanning from USA, Europe and APAC and now I want to share these skills and Power BI knowledge with you.

I realised that data driven insights might not always be apparent to the business, that stakeholders who have the most to gain are not always capable or willing to do the analysis themselves and that those who have the most to gain, might be resistant to changing the status quo.

Turning data into meaningful and impactful insights, enabled me to improve customer experience, grow revenue channels, reduce waste, save time, improve staff/customer retention rates and change the mindset of an entire organisation.

Business Analytics, Content Marketing, Social Media Marketing, Digital Marketing, Lead Generation, Email Marketing

RonInsights

Preparation

This workshop is highly interactive with group activities and discussions throughout. Come prepared with some current challenges you face in your organisation.

To participate you'll need:

- A computer with camera and microphone
- A working version of Power BI
- Strong internet connection
- Quiet, well-lit space
- Current process, automation and services challenges that you face
