

Future Cities Roadshow

Shaping Tomorrow Through Technology and Innovation

March 5 - 19, 2024
NS | ON | AB | BC

Publicsectornetwork.com P: +1 (510) 556 0789 E: Registrations@publicsectornetwork.co

Shaping Tomorrow Through Technology and Innovation

Cities worldwide are undergoing a transformative shift, leveraging the power of modern technology to address pressing challenges exacerbated by the COVID-19 pandemic. The traditional model of urban planning is no longer sufficient, and municipal leaders are seeking innovative solutions to create smart, sustainable, and thriving future cities. The Future Cities Roadshow is a dynamic platform that brings together visionary leaders, experts, and stakeholders to explore the convergence of technology, urban development, and community well-being. This roadshow will delve into the strategies and approaches needed to reshape cities into experience-centric hubs where citizens, businesses, and governments thrive together.

The Future Cities Roadshow provides a unique opportunity to delve into the intersection of technology, urban transformation, and citizen well-being.

Join us to explore innovative solutions, collaborate with industry leaders, and contribute to the creation of smarter, more sustainable cities for all.

REGISTER TODAY

Who You'll Meet

This series is designed for:

- City Leaders and Officials
- Urban Planners and Architects
- Technology Experts
- Industry Representative
- Academics and Researchers
- Non-Governmental Organizations (NGOs)
- Business Leaders and Entrepreneurs
- Citizen Advocates and Community Leaders
- Academic Institutions
- Consultant and Advisors
- Investors

Benefits of Attending

Innovative Insights: Gain valuable insights into cutting-edge technologies and strategies driving the transformation of cities into smart, connected, and sustainable ecosystems.

Networking Opportunities: Connect with thought leaders, experts, and peers in urban development, technology, and governance, fostering collaboration and partnerships.

Practical Solutions: Discover actionable solutions and best practices to address urban challenges and enhance citizen-centric services.

Strategic Thinking: Explore how city leaders are shifting from traditional organizational processes to experience-centric approaches, creating a paradigm shift in urban governance.

Explore the Agenda - Toronto, ON

Thursday, March 7, 2024
KPMG Office | 333 Bay Street, Toronto, ON

8:00am **Registration and Networking Coffee**

8:30am **Welcome from Public Sector Network**

8:40am **Welcome and Keynote Address: Reimagining Citizen-Centric Services through Technology**

- Exploring the shift from 'inside-out' to 'outside-in' thinking in delivering citizen-centric urban services.
- Case studies on cities leveraging technology to gather public insights and enhance service design.

Eric Wolfe, *Partner, Deal Advisory and National Cities Lead*, KPMG Canada

9:00am **Government Keynote: A Vision for Future Cities**

- Uncovering the making of an integrated, inclusive, and citizen-centric smart city
- Exploring strategies to foster innovation, resilience and sustainability in the future smart city

Paul Johnson, *City Manager*, City of Toronto

9:20am **Interactive Session: Reimagining Citizen-Centric Services through Technology**

Hosted by **Eric Wolfe**, *Partner, Deal Advisory and National Cities Lead*, KPMG Canada

9:40am **Panel Discussion: Charting the Course for Future Cities**

- With the rise of vertical and smart cities, what strategies can cities take to preserve and create a stronger sense of community among residents?
- How do you envision the integration and balance between urban development, technology, and sustainability?
- Can you provide examples of innovative solutions implemented by cities to enhance urban resilience and safeguard communities from environmental crises?
- In what ways do alliances and partnerships play a pivotal role in fostering sustainable urbanization? How do these efforts align with the United Nations Sustainable Development Goals, if at all?
- As we reflect on the discussions throughout the day, what are the most significant takeaways that can guide the direction of future cities toward a more resilient and collaborative urban landscape?
- How can technology be harnessed to promote sustainable urban development while ensuring inclusivity in future cities, and what economic models or policies can support this effort?
- In the context of emerging smart cities of the future, what potential economic impacts and challenges should we anticipate, particularly in terms of job creation, income distribution, and resource allocation, and how can we address these issues?
- Future sustainable cities will require substantial initial investments in infrastructure and technology. What economic strategies or incentives can encourage private and public sector collaboration in developing sustainable, inclusive urban infrastructure in the cities of tomorrow?

Steve Ganesh, *Commissioner, Planning, Building, and Growth Management*, City of Brampton

Fiaz Jadoon, *Director, Economic Development & Strategic Projects*, City of Pickering

Faria Latif, *Director, Stations Capital Delivery*, Metrolinx

Matthew Lumsden, *Canadian Growth Lead*, Verra Mobility – Redflex Traffic Systems (Canada)

Moderator: **Eric Wolfe**, *Partner, Deal Advisory and National Cities Lead*, KPMG Canada

10:20am Morning Coffee and Networking Break

10:40am Concurrent Roundtables: An interactive opportunity to collaborate

1. Emerging Technologies and the Urban Future: Bridging the Urban Tech Divide
Facilitated by: **Mike Varey**, *Partner, Cities, Global Infrastructure Advisory, KPMG Canada*
2. Sustainable Practice and Emerging Technologies for Facilities Asset Management
Facilitated by: **Vishal Rane**, *Sustainable Facilities and Asset Management Product Manager, IBM*
3. Roadblocks and Opportunities to Achieving Vision Zero
Facilitated by: **Matthew Lumsden**, *Canadian Growth Lead, Verra Mobility – Redflex Traffic Systems (Canada)*

11:40am Gold Partner Session: Mitigating the Impact of Climate Change to Public Infrastructure and Budgets for Resilient Communities

- Implementing proactive adaptation strategies and resilience planning across the lifecycle of public infrastructure.
- Quantifying future risk in rapidly changing climate scenarios through predictive and climate modelling technology

Elena Pison, *Sustainability Solutions Architect and Meteorologist, IBM*

12:00am Fireside Chat: Promoting Economic Growth and Housing Equity: Building Inclusive and Sustainable Future Cities

Sean Botham, *Manager of Development, City Housing Hamilton Corporation*

Eric Wolfe, *Partner, Deal Advisory and National Cities Lead, KPMG Canada*
