

Removing Barriers: Improving Digital Accessibility in the Public Sector

TRAINING

Creating and Curating Inclusive Digital Spaces and Content

Facilitated by MAURICIO PEREZ HCD Strategist and Accessability Specialist Good HCD

Online \rightarrow 2 and 9 May 2024

Overview

Access to digital services is not a luxury – it is a requirement for full participation in contemporary social, economic, and civic life. Therefore your online and digital content must be inclusive to all your users. From people with disabilities to those with differing literacy levels your webbased content needs to be accessible to all.

This is where WCAG guidelines come in, providing a benchmark and roadmap in your journey to greater accessibility. Attend this course to discover the principles and practices of creating accessible content that meets the four principles of WCAG 2.1: perceivable, operable, understandable, and robust. Our training covers guidelines, content design and human-centred design principles. It will provide you with hands-on practice to ensure you master the techniques for creating accessible text, multimedia, tables, forms, and more. Our expert trainer will guide you through best practices for creating accessible PDFs and e-books, testing and evaluating WCAG 2.1 compliance, and implementing these practices in public sector agencies.

Developed for content creators, curators and designers; this course will equip you with the knowledge and skills needed to create and curate compliant, inclusive content for all users, including those with disabilities.

Learning Outcomes

Understand the importance of accessibility of web and online services

Unpack WCAG 2.1 principles and compliance

Think creatively about content design for accessibility

Develop empathy for people with disabilities and promote inclusivity
