# Audience Testimonials

**“A unique chance to connect with a vast array of colleagues from the Public sector.”**

Canada Council for the Arts

**“I enjoyed attending the event. It was very well organized. It also gave us the opportunity to connect with others across the public sector, share knowledge, learn lessons and collaborate with new stakeholders.”**

Employment and Social Development Canada

**“An excellent collection of plenary speakers and panels, from both the private and public sector that gave me, as a new person to the world of Data, the confidence to ask questions, network, and really get started on building something within my own organization.”**

Tax Court of Canada

**“The event featured speakers and topics that were relevant to government today. The good balance of public service leaders and private sector companies allowed for a good conversation on the art of the possible and as well ideas on how to navigate challenges typical to working in government.”**

Statistics Canada

**“This year’s show was excellent. The variety in speakers and topics was enlightening while also covering topics that were extremely salient to the environment we find ourselves in (i.e. large focus on AI this year). I look forward to joining again next year and seeing that the hot topic will be. My guess will be that the fiscal cliff the federal government finds itself on will have a large impact on how we deliver services and equip our workforce.”**

## About Us

Public Sector Network connects government organizations across the globe.

Our mission is to give public sector professionals a single place to come together, share ideas, and get free, unlimited access to the latest information about critical topics that are transforming the government landscape.

Our government-only network helps members find relevant international content and case studies that are critical to your work and can help you save time, and money. For those who are looking to network at a deeper level, we hold insightful online and in-person events, ranging from conferences and exhibitions, to intimate training courses and forums across major cities around the world.

The Public Sector Network (PSN) is a certified B Corporation, a business that meets the highest standards of verified social and environmental performance, public transparency, and legal accountability to balance profit and purpose.

The goal of the B Corps is to accelerate a global culture shift to redefine success in business and build a more inclusive and sustainable economy.

Public Sector Network events, like the Public Sector Innovation Show, limit waste where possible. Initiatives like using reusable dishware instead of plastic disposable options and limiting paper through use of our event app are only small examples of our commitment to sustainability.

## Become a Supplier

We understand that government needs to partner with private sector, but this can often be a crowded, noisy market.

Our network is designed for public sector professionals only as it maintains the credibility of our content for our government members.

In order to help our members connect with private sector, we have created Public Sector Network's Marketplace where solution and service providers can create free profiles showcasing their business. Our members can easily search for any requirement and connect directly with you.

If you want to get exposure to our ever-growing membership, then start your free page today.
