Audience Testimonials

“It’s valuable for those of us in our Branch to attend the presentations and participate in round tables with other departments/divisions. This helps us learn what we could do differently and share our ideas with others.”

State of California - DHCS

“Great experience, nice way to connect with colleagues from different departments and sectors of government, and overall excellent content was delivered.”

California Department of Rehabilitation

“Excellent organizational dynamics! The Government Innovation California conference sets a new trend in inviting CIOs to present their insights and recommendations. The panels on diverse topics was exceptional. The discussion panel groups was an excellent way to engage one and all in the topics of their interest and we had a great coordinator. The topics were very good. I sincerely wish I could participate in more than one parallel group discussion session and they needed to be parallel as there were quite a few interesting topics! Overall right from time management, inclusiveness and equity and the food, this was a five star conference!”

About Us

Public Sector Network connects government organizations across the globe.

Our mission is to give public sector professionals a single place to come together, share ideas, and get free, unlimited access to the latest information about critical topics that are transforming the government landscape.

Our government-only network helps members find relevant international content and case studies that are critical to your work and can help you save time, and money. For those who are looking to network at a deeper level, we hold insightful online and in-person events, ranging from conferences and exhibitions, to intimate training courses and forums across major cities around the world.

The Public Sector Network (PSN) is a certified B Corporation, a business that meets the highest standards of verified social and environmental performance, public transparency, and legal accountability to balance profit and purpose.

The goal of the B Corps is to accelerate a global culture shift to redefine success in business and build a more inclusive and sustainable economy.

Public Sector Network events, like the Public Sector Innovation Show, limit waste where possible. Initiatives like using reusable dishware instead of plastic disposable options and limiting paper through use of our event app are only small examples of our commitment to sustainability.

Become a Supplier

We understand that government need to partner with private sector, but this can often be a crowded, noisy market.

Our network is designed for public sector professionals only as it maintains the credibility of our content for our government members.

In order to help our members connect with private sector, we have created Public Sector Network's Marketplace where solution and service providers can create free profiles showcasing their business. Our members can easily search for any requirement and connect directly with you.

If you want to get exposure to our ever-growing membership, then start your free page today.
