

Florida Government Leadership and Innovation Summit

Leading Change, Serving Floridians: Collaborative and Future-Focused Government

Tuesday, October 29, 2024

Florida State Conference Center 555 W Pensacola St. Tallahassee, FL 32306

Powered by:

Agenda at a Glance

The Florida Government Leadership and Innovation Summit, hosted by the Florida Technology Council offers a unique opportunity for state agencies to highlight their achievements and dive into the strategies that contributed to their success. This event serves as a platform for agency leaders to showcase their innovative approaches and the operational improvements that have enabled them to excel.

By focusing on the methods that helped drive these successes, the Summit aims to assist other agency leaders in replicating similar results. Attendees will gain insights into best practices around collaboration, technology, digital transformation, cybersecurity, workforce development, vendor collaboration, and procurement processes that have proven effective in advancing agency missions.

Join the Florida Technology Council, and your fellow leaders on October 29, 2024, to explore how Florida's state agencies can continue to support one another in achieving shared goals for the benefit of all Floridians.

This conference is made possible thanks to the educational support of the Florida State University College of Communication as a distinguished member of the Florida Technology Council.
